

Philips Color Kinetics offers a broad range of Power- and Data supplies

LED Lighting Power/Data supplies

We designed our power/data supplies to integrate seamlessly with our color-changing, intelligent white, and fixed-color LED lighting fixtures. Industry-leading features include power factor correction, conduit-ready connections, and auto-switching from 100 to 240 VAC.

Benefits

- Power/Data Supplies for both interior and exterior use
- US and Metric options available

Features

- Philips Data Enabler Pro merges line voltage and control data and delivers them to Powercore fixtures over a single cable, dramatically simplifying installation and lowering total system cost.
- Support for both DMX and Ethernet configurations.
- Allows for ActiveSite integration.

Application

- Retail & Hospitality
