

Straight Square Steel Pole - superior structural quality

Straight Square Steel Pole

The Gardco SSS straight steel pole consists of a one piece square fabricated steel lighting standard. The carbon steel base plate is secured to the shaft with a continuous circumferential weld providing excellent strength and integrity. The poles are finished with an electrostatically applied, thermally cured TGIC polyester powder coat.

Benefits

- Built to withstand harsh environmental conditions
- Superior corrosion resistance
- Optimal strength and durability

Features

- 4", 5" or 6" poles
- Available in various heights ranging from 10' to 40'

Application

- Parks and Plazas
- Road and Street
